Mr. Jerry Stollings called the meeting to order at 2:01PM. Ms. Nadia Acosta stated that the agenda needed to be amended as the date of the next meeting was incorrect (listed as June 25, 2024 instead of July 23, 2024) and that another emergency funding request had come in after publication of the packet and agenda, causing two cases to be reviewed instead of one. Mr. David Ash made a motion to approve the agenda as amended, and Ms. Leea Shirley seconded. All members voted in favor.

Old Business:

- 1. Ms. Shirley made a motion to approve the May 28, 2024, CPMT minutes. Ms. Denise Acker seconded the motion. All members voted in favor.
- 2. Mr. Frank Moore reported that as of 06/24/2024, Clarke County Public Schools had appointed a new interim superintendent. There were no other agency updates.

New Business:

1. Ms. Stephanie Bacote, the Program Audit Manager with the Office of Children's Services, presented the draft report of Clarke County CSA's program audit. Ms. Bacote stated that due to Clarke County CSA's program size, the audit process begins with Clarke County CSA completing a self-assessment workbook that the Office of Children's Services (hereafter referred to as OCS) auditor then validates. Ms. Bacote reported that the self-assessment workbook only goes over state policy compliance, and not local

policy compliance, as local policy differs by county. Ms. Bacote reported that the selfassessment workbook completed by Clarke County CSA only documented a lack of utilization review but did not list this lack of utilization review as significant. Ms. Bacote stated that as utilization review is required by the Code of Virginia, the lack of utilization review was a significant lack of compliance. Ms. Bacote then reported that she had chosen 6 case files from the Clarke County CSA program to go over. Ms. Bacote reported that in all 6 case files there was missing documentation which had both a fiscal impact and a non-fiscal impact. Ms. Bacote reported on the missing documents that had a fiscal impact first. The fiscal impact was \$17,444.97. In 5 out of the 6 cases reviewed, Ms. Bacote noticed services that were funded but not mentioned in the service plan. In 3 out of the 6 cases reviewed, Ms. Bacote noticed that there was not enough documentation to establish a child's eligibility, either through a Child In Need of Services (CHINS) determination or an IEP. In 2 out of the 6 cases reviewed, Ms. Bacote noticed there were no consents to exchange information/releases of information. In 1 out of the 6 cases reviewed, Ms. Bacote noted that a transaction was recorded with the wrong expenditure category causing the locality to overpay by \$773.36. Ms. Bacote then reported on the missing documents that did not have a fiscal impact. Ms. Bacote reported that in all of the cases there was no utilization review completed; Ms. Bacote reported that Clarke County CSA had previously reported this in the self-assessment workbook. Ms. Bacote reported that there were no co-pay screenings completed for parents in the cases that required a co-pay screening. Ms. Bacote reported that the Individual and Family Service Plans (IFSPs) were missing discharge plans and duration of services requested. Ms. Shirley stated that Clarke County CPMT does not see IFSPs and asked how to ensure that this issue was completed. Ms. Bacote responded that her recommendation was to have periodic internal reviews of the IFSPs done either by CPMT or by a subcommittee of CPMT. Ms. Bacote reported that the service name descriptions were miscoded in 2 cases. Ms. Bacote reported that Continuous Quality Improvement was missing from the CPMT minutes and packets she had reviewed; Ms. Bacote stated that the OCS website had a section specifically for Continuous Quality Improvement data as reported to them and recommended CPMT make use of that. Ms. Bacote reported that the strategic plan for Clarke County CSA was out of date. Ms. Bacote then moved on to the recommendations to correct the mistakes and noncompliance noted by the audit. Ms. Bacote first recommended to use the tools and data on the OCS website as much as possible. Ms. Bacote also recommended going over existing internal controls and finding those internal controls' deficiencies. Ms. Bacote recommended reviewing funding policies and the sources of funding policies. Finally, Ms. Bacote went over the next steps for the Clarke County CSA audit. Ms. Bacote stated that Clarke County CPMT would be given the chance to submit comments on the audit results and gave two options for the due date: either two weeks after this CPMT meeting (July 9th), or 7 days after July's CPMT meeting (July 30th). All members voted to add a section to compile comments to the

agenda for July's CPMT meeting and to request July 30th as the due date for CPMT's comments. Ms. Bacote stated that after the final report was published, a Quality Improvement Plan (QIP) would be due to OCS around the end of August, and the report and the QIP would then be sent to OCS executive team, who would then issue a decision on the report and the QIP. Ms. Bacote reported that should Clarke County CPMT disagree with the executive team's decision, there would be a method of appeal available. Ms. Bacote reported that after the audit was completed, Clarke County CPMT would receive a survey on the audit process and encouraged Clarke County CPMT to complete the audit once it was sent out. Ms. Bacote then left the meeting.

Ms. Parker stated that in previous localities that she had been a CSA Coordinator for, IFSPs had been brought to CPMT for review and for signing; however, current policy at Clarke County was that IFSPs were not brought to CPMT and identifying information such as names was left off the cases for vote on funding authorization. Both Ms. Parker and Ms. Acker expressed concern at the missing consents to exchange information. Mr. Ash, Ms. Acker, and Ms. Shirley all stated that they felt that not enough information was presented to CPMT for vote on funding authorization at this time. Mr. Stollings stated that deficiencies in documentation had already been noted and were in the process of being corrected. Mr. Stollings stated that Ms. Acosta had requested a new IFSP with significantly more information to be implemented as of 03/01/2024. Ms. Parker reported that she had collaborated with Ms. Acosta to create an up-to-date "Case Manager Checklist" of required documentation for all cases coming to FAPT and that this Case Manager Checklist was on the case manager portal for all case managers to access. Ms. Acker asked how CPMT was to ensure that each child met eligibility criteria. Ms. Parker stated that in her opinion it was the job of FAPT to ensure that each child met eligibility criteria before having the case sent to CPMT for funding authorization. Mr. Stollings stated that in his observation, the biggest concerns for CPMT to focus on were utilization review and utilization management, review of eligibility, and strategic planning. Ms. Parker stated that it would be a good idea to do a random sampling of case files to ensure all eligibility documentation was in place. Mr. Stollings stated in his position, he and his staff went through a self-audit every year and suggested that every CPMT member take 2 or 3 case files to review and then have all the findings compiled for presentation at September's CPMT meeting. Ms. Shirley suggested that all funding authorization requests be sent out prior to CPMT to allow for time to review. Mr. Ash and Mr. Moore suggested that the agenda and packet be updated to include sections with Continuous Quality Improvement language to ensure CPMT was meeting that CQI requirements.

2. All members reviewed the strategic plan. Some minor edits to make wording clear and ensure continuity were made. Ms. Shirley made a motion to approve the strategic plan as amended, and Ms. Parker seconded. All members voted in favor.

3. Mr. Stollings stated that he believed it would be appropriate to combine the next two sections of the meeting into one section. Ms. Acosta reported that the FAPT parent representative had resigned. Ms. Acosta stated that she would request the Public Information Officer to advertise the position of FAPT parent representative on the Clarke County CSA website, and that she had already asked the school social worker if the school social worker knew of any appropriate candidates for the parent representative position. Mr. Moore stated that Ms. Acosta had also reached out to him as well. Ms. Parker recommended sending a flyer advertising the position to the Clarke County Parent Teacher Organization (PTO). Ms. Acker and Mr. Moore stated that as Clarke County CSA has had trouble recruiting and maintaining a parent representative to FAPT, they believed a stipend for the parent representative to attend meetings was appropriate. Ms. Parker stated that she and Ms. Acosta would get together to work out the budget for a stipend, but mentioned that any stipend over \$600 total for the fiscal year would require a 1099 tax form be sent to the parent representative as well. Mr. Stollings stated that he thought it would be appropriate to authorize a stipend fund of up to \$50 per FAPT meeting that the parent representative attended and then narrow the actual stipend once a parent representative had been recruited. Ms. Shirley made a motion to approve a stipend for the FAPT parent representative of up to \$50 per FAPT meeting attended, and Ms. Parker seconded the motion. All members voted in favor.

Financial Report:

Ms. Acosta presented the pool reimbursement report for May 2024 and the financial report. Ms. Brenda Bennett, director of Joint Administrative Services and fiscal agent for Clarke County CSA, attended. Ms. Shirley stated that there was an approximately \$300,000 difference between what had been encumbered in FY24 and what was actually spent; Ms. Shirley stated that this was a very large difference and wanted to know what the difference was from. Ms. Bennett stated that to the best of her knowledge, Ms. Acosta had been up to date about requesting unused purchase orders be unencumbered. Ms. Bennett reported that some payments for invoices had already been made in June totaling around \$52,000; Ms. Bennett stated that if the second check run was similar to the first, that would lower the difference between encumbrances and actual expenditures. Ms. Acosta and Ms. Parker reported that there were several vendors who had to be reminded to submit invoices. Mr. Moore asked if there was a certain date by which Clarke County CSA would not pay an invoice. Ms. Acosta responded that per the service contract for Clarke County CSA, the vendors had 45 days from the end of the service period to send an invoice before Clarke County CSA reserved the right to refuse payment due to a late bill. Ms. Acosta also stated that any invoices for FY24 had a hard cut-off date of September 30th, but that she was already reaching out to vendors to ensure invoices were sent in on time. There were no other questions from the team.

Closed Session:

See attachment A for completed form detailing the motion to enter closed session, vote on the items discussed, and certify the discussion in closed session.

Consent Agenda:

The consent agenda with 12 cases and 2 emergency funding requests was reviewed. Ms. Shirley made a motion to approve the cases as discussed in closed session and deny funding for case #357's request for therapeutic mentoring and parent mentoring, case #382's request for childcare due to lack of provider, case #381's request for outpatient therapy, and case #356's request for a non-therapeutic summer camp. Ms. Acker seconded the motion. All members voted in favor.

Mr. Moore made a motion to adjourn the meeting. Ms. Parker seconded the motion. All members voted in favor.

Chair

Date

CPMT Chair Job Description¹

The Community Policy and Management Team (CPMT) is the statutorily established local governing body for the Children's Services Act (CSA) program. Key responsibilities are to oversee policy and procedures regarding the use of CSA funds and operating procedures within the statutory and regulatory framework of the Act. The CPMT Chair plays an important leadership role as the head of this oversight and decision-making body. The Chair's responsibility spans beyond basic meeting facilitation. While each locality differs in the implementation of the local CSA program, there are fundamental responsibilities that can assist each CPMT with improving and instilling best practices into their local program.

Key responsibilities:

- Serves as the official local program contact and liaison to the Office of Children's Services.
- Develop CPMT meeting agendas, in collaboration with the CSA Coordinator.
- Facilitate CPMT meetings.
- If the Chair is from a local agency that does not oversee CSA daily operations, the Chair should maintain open communication with the CSA program's supervisory staff.
- Facilitate strategic discussion and planning to include, but not limited to:
 - o Fiscal management and budget risks and opportunities;
 - o Service trends and utilization;
 - o Long-term and short-term goals for the program;
 - o Enhancements to the local system of care;
 - o Solution-focused discussion about identified system barriers and service gaps; and
 - o Collaboration across stakeholder groups.
- Ensure effective communication amongst CPMT members and key stakeholders.
- Encourage CPMT members to engage in building a positive culture.
- Set a collaborative and strategic tone for a locality's child-serving system.
- Ensure CPMT decisions reflect CSA core principles, CPMT Code responsibilities, and local policy parameters.
- Administrative functions to include, but may not be limited to:
 - o Ensuring regular attendance for all CPMT members;
 - o Ensuring Freedom of Information Act (FOIA) requirements are followed;
 - Supporting appeal hearings;
 - Operating as the signatory for local CPMT documents including contracts, as so authorized by the local government.
 - o Completing required financial forms; and
 - Ensuring CPMT members receive fiscal and budget information that supports CPMT oversight of CSA expenditures.

Clarke County FAPT Policy Change Requests

Clarke County FAPT (FAPT) has been discussing the FAPT processes and has proposed some changes to better serve Clarke County families and children.

- 1. FAPT would like to change the dates that FAPT meetings are held to better accommodate the schedules of both parents and the FAPT members attending. FAPT is requesting based on the current caseload heard each month, that meetings be changed from the 1st Tuesday of each month from 1-4PM and the 3rd Tuesday of each month from 10AM-1PM to the 2nd Tuesday of each month from 9AM-3PM.
 - (1) FAPT is aware that emergency funding requests must be heard within fourteen (14) days. To continue compliance with this policy, FAPT is requesting that policy be changed to allow virtual meetings to be acceptable and count towards quorum ONLY for emergency funding requests. To ensure FAPT member engagement, FAPT has agreed to have policy require:
 - a) all FAPT members must have their cameras on.
 - b) all FAPT members must be actively engaged in the meeting.

As concerns about virtual meetings have been raised previously, the CSA Coordinator is researching with the Office of Children's Services if this is acceptable practice and whether FAPT is considered a public meeting body under VAC§2.2-3708.3.

- (2) FAPT proposes having one uniform date with a wide variety of times will be more helpful for parents who might need to take leave from work to attend the meeting. FAPT is also requesting the 2nd Tuesday of each month to better meet the schedules of the individual FAPT members and prevent issues with meeting quorum. FAPT recommends that this change in date may be helpful in the recruitment of a new parent representative, providing a lesser time commitment and some virtual options.
- 2. FAPT is requesting the CPMT provide a brief explanation of funding authorization denials, for cases in which the service recommendation is in line with both OCS and local policy. FAPT would like to learn how to best serve the community and avoid making recommendations for services that do not meet policy or deemed excessive.
- 3. FAPT is requesting that a Virginia Department of Health representative be added to the team. FAPT considers the additional member appointed would only better serve the community, provide additional resource information and knowledge, and would help prevent quorum problems.

4. The FAPT team proposes semi-annual meetings with CPMT to evaluate the Clarke County CSA program growth, goals, and how to best meet the needs of families. FAPT proposes the first joint meeting of FAPT and CPMT occur in the 3rd quarter of 2024.

Virtual Family Assessment and Planning Team (FAPT) Meetings¹

What does virtual FAPT mean?

A FAPT meeting is considered virtual when any of the participants are utilizing a web-based platform/application (e.g., Zoom) and/or phone to facilitate or engage in the meeting.

<u>Fully virtual FAPT meetings</u> occur when FAPT members, the family, provider, and any other participants <u>all</u> participate by video or phone.

<u>Hybrid virtual FAPT</u> means any combination of the following:

- The FAPT members may all be meeting in person in the same room and any combination of the caseworker, family, providers, etc. participate via electronic means.
- Any combination of FAPT members, family, or providers participating in an in-person meeting with some members participating virtually.

Benefits to a virtual FAPT:

- Improved participation, attendance, and engagement from families and vendors.
- Elimination of the need for travel by team members, and providers.
- No transportation barrier for families.
- More flexible scheduling options so that FAPT can occur, avoiding and decreasing interruptions in service approval/provision.

Potential barriers to a virtual FAPT:

- Internet/Technology issues.
- Lack of FAPT member engagement.
- Concerns about obtaining signatures.
- Inability to provide an adequate level of confidentiality due to available platform capabilities.
- The virtual platform may not be the best way to engage all families.

¹ This document was developed for the CSA State and Local Advisory Team by a group of SLAT members and local CSA Coordinators. The document was approved by the SLAT on August 4, 2022.

Best Practices/Guidance for Virtual FAPT Meetings

If a locality is going to utilize a virtual FAPT option, it is recommended that local policy include language regarding the authorization and circumstances of virtual FAPT meetings. Policy language may include content related to some of the best practices identified for virtual FAPT meetings.

Security:

Learn about the security features of the virtual platform and implement the applicable security features to whichever platform you use. Potential options to mitigate security concerns include, but may not be limited to:

- Work with your locality's IT Department to identify the available platforms and security features.
- Locked meetings.
- Obtain a list of expected participants in advance and admit only authorized individuals.
- Use separate meeting links for each FAPT case.
- Utilize a meeting password/passcode.
- · Designate a host to admit individuals.
- Ensure staff and families know that using an open (non-secured) Wi-Fi internet access limits the amount of meeting security.
- Make sure your local policy addresses that virtual meetings should not be recorded.

Confidentiality:

Being in a virtual setting for FAPT members is different than being in the controlled environment of the FAPT conference room, so confidentiality looks different. Localities may want to consider updating FAPT member confidentiality forms to include confidentiality for FAPT members working off-site. Some possible options include:

- Annual confidentiality agreement that includes a statement that references protocols
 when a member is participating in a meeting virtually, such as ensuring that
 confidential information is protected and not visible or will be able to be overheard by
 individuals who are not supposed to have access to that information.
- Include statements of confidentiality on the IFSP signature page that acknowledges each participant's pledge to keep information confidential. For example: "By signing this IFSP, I agree not to divulge any information revealed at this meeting to any individual or agency, except as authorized by policy or required by law."

Signatures:

It is recommended that localities meeting virtually have a signature solution, ideally an electronic signature program recommended by your locality's IT Department. Potential options include, but may not be limited to:

- DocuSign
- Adobe Sign
- Faxing/Scanning

If signatures are unable to be obtained through an electronic method, verbal consent should be documented in the Individual Family Service Plan ([FSP) with a notation of who provided the consent, on what date, and who recorded it on the document.

Family Engagement:

- Have a call-in option for people unable or do not have the capacity to participate via a web- based platform.
- If allowable by your locality, consider purchasing calling cards for families who may struggle with keeping cell service.
- · Have a language interpreter to engage in the virtual meeting if needed.
- Ensure that enough time is scheduled for the meeting such that the family's voice can be heard in the time allowed.
- Provide as much flexibility in scheduling to ensure that the time scheduled works for the family.

<u>FAPT Member Engagement/Professionalism</u>:

FAPT members should participate in meetings in the same way that they would participate in person, in terms of levels of engagement and professionalism. It is recommended that localities each identify their own requirements and develop their culture of engagement. Some suggestions include:

- Members should use their camera if they have access to one.
- Members should demonstrate engagement by looking at the screen (and/or explaining that they are looking at a second screen for typing).
- Members should provide feedback and participate in the conversation.
- Members should avoid eating, driving, napping, answering the phone, engaging in "outside" conversations, etc. during FAPT meetings.
- Consider designating a specific "technology facilitator" and/or a separate

- documenter, so the meeting facilitator is able to fully engage with the family and participants.
- Facilitators may consider an opening statement to families and providers to explain some of the things mentioned above. For example, "please note that our staff will be engaged during your FAPT meeting today, but there may be times when staff will be writing notes or researching policies and services related to your case and therefore they may seem distracted."
- Consider formats where at least some FAPT members are in person in the same room to facilitate communication among members.
- Consider having rules of engagement displayed on the screen if using a virtual platform.
- Localities should have a procedure regarding cancelation of virtual FAPT meetings in the event that a meeting is canceled.

ADMINISTRATIVE MEMO #24-04

To:

CPMT Chairs

CSA Report Preparers CSA Coordinators CSA Fiscal Agents

From:

Kristy Wharton, Chief Financial Officer

Date:

July 17, 2024

Subject:

FY2024 CSA Program Expenditure Year End

FY2025 Base Pool Allocation Funds / Non-Mandated (protected) Funds

FY2025 Wraparound Services for Students with Disabilities Funds (SPEDWrap)

FY2025 Expenditure Reporting

FY2024 Year-End Reimbursement Processing:

During the months of July, August, and September, LEDRS can accept expenditures incurred in multiple fiscal years. During the month of July and August, a locality can only submit one LEDRS file each month. In the month of September, a locality can submit up to three (3) LEDRS files.

In the months of July, August, and September, LEDRS separates the submitted data into FY2024 and FY2025 based on the purchase order's fiscal year, this will determine the program service year and the month of service. The expenditure reimbursement data from the locality comes in a single submission. Therefore, a locality should review both FY2024 and FY2025 data reimbursement requests before the Fiscal Agent approves the July, August, and September LEDRS submissions.

All FY2024 reimbursement requests, for CSA services incurred during July 1, 2023, through June 30, 2024, must be approved by the local CSA fiscal agent in LEDRS by midnight September 30, 2024. Late submissions will not be accepted for reimbursement as addressed in SEC Policy 4.5.2.

Waivers to the September 30 reporting requirement must be submitted in writing and will be considered only if local governments demonstrate mitigating circumstances beyond their control.

CSA 2025 Base Pool Allocation and Non-Mandated (Protected) Funds:

Attached to this memorandum is a table showing the FY2025 Base Pool Allocation by locality. The amount shown in the table will be the locality's Base Pool Allocation which will be reflected in the CSA Transaction History Report. The table also reflects an estimated local base match needed to receive the state's allocation. Please carefully review the amount allocated to your locality.

The Non-Mandated (Protected) funds are a subset of the locality's Base Pool Allocation. The Non-Mandated (Protected) funds are not additional funds. Your locality can use a portion of the Base Pool Allocation to provide non-mandated services. Attached to this memo is a PDF file, which reflects the FY2025 Non-Mandated (Protected) funds associated with a locality's Base Pool Allocation.

FY2025 Wraparound Services for Students with Disabilities Funds:

The FY2025 state appropriation allocation for "Wraparound Services for Students with Disabilities (SPEDWrap) is \$2.2 million. This specific appropriation represents a continuation of the CSA "earmark" funding for this service category.

This limited appropriation places several restrictions on expenditures for this category. The state share of reimbursement of this category of expenditures may not exceed \$2.2 million statewide, nor can the appropriation be used for or transferred to other service categories. As with all state appropriations, any unexpended allocation cannot be carried forward to the next fiscal year. The Office of Children's Services (OCS) must allocate and manage these funds to ensure compliance with these restrictions.

The use of the funds for "Wraparound Services for Students with Disabilities" allows localities to provide services to youth when their identified educational disabilities affect adjustment outside the school environment. These services may provide critical support for youth facing significant home or community challenges. Communities are encouraged to consider their local policies regarding the provision of SPED Wraparound services and to identify strategies to maximize the utilization of community-based support for all youth.

The allocation and management of the funds are based on the following principles.

- 1. All localities should have access to and an opportunity to utilize the funds,
- 100% of the earmarked funds will be available for allocation.

The process for allocation and management of the FY2025 SPED Wraparound funds will be as follows:

- 1. Allocations will be based on a running three-year average of the locality's utilization of the funds.
- 2. Only those localities with SPEDWrap reimbursements for FY 2024 will receive allocation
- 3. If a locality does not receive SPED Wraparound funds in the initial allocation (due to no history of utilization) or if a locality needs additional SPED Wraparound funds beyond those initially allocated, the locality can request funds by the local LEDRS Report Preparer initiating a request in the appropriate area of the Local Government Reporting section of the CSA website.

- 4. In January any locality, which has not posted SPED Wraparound expenditures to LEDRS, will risk having their allocation unallocated by OCS.
- 5. Request for additional SPED Wraparound funds will be supported based on the availability of unallocated SPED Wraparound funds. The total state allocation cannot exceed \$2,200,000.

FY 2025 Expenditure Reporting:

The LEDRS System will open for FY2025 program service year reporting (services from July 1, 2024 through June 30, 2025) on August 1, 2024. The LEDRS will be the CSA expenditure system of record and shall be the source to report and calculate the state's share of CSA reimbursement to localities.
