#### **Independent Auditors' Report**

To The Honorable Members of the Board of Supervisors County of Clarke Berryville, Virginia

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Clarke, Virginia, as of and for the year ended June 30, 2008, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Clarke's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the Specifications for Audits of Counties, Cities and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Clarke, Virginia, as of June 30, 2008, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2008, on our consideration of the County of Clarke, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

Management's Discussion and Analysis, Budgetary Comparison Schedules and Schedule of Pension Funding Progress as identified in the accompanying table of contents are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Clarke, Virginia's basic financial statements. The accompanying financial information listed as Other Supplementary Information in the table of contents and the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects in relation to the basic financial statements taken as a whole. The other statistical information listed in the table of contents is not a required part of the basic financial statements, and we did not audit or apply limited procedures to such information. Accordingly, we express no opinion on them.

Robinson, Farmer, Cox Associates Charlottesville, Virginia

December 9, 2008

## County of Clarke, Virginia Management's Discussion and Analysis

As management of the County of Clarke (the "County"), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2008

#### Financial Highlights

- The assets of the County (excluding component units) exceeded its liabilities at the close of the most recent fiscal year by \$17.8 million (net assets). Of this amount, \$11.9 million (unrestricted net assets) may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's total net assets increased by \$2.32 million, of which the governmental activities accounted for 100% of the increase.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$13.1 million, or 72% of General Fund expenditures excluding transfers less any capital outlay projects funded with bond proceeds. The Fiscal Policy of Clarke County requires that certain financial designations of General Fund balance be maintained. These financial designations comprise \$3,659,029 of unreserved fund balance. Saving for pay-as-you-go capital expenditure comprises another \$2,043,729. Multi-year capital appropriations, net of estimated revenue, encumber an additional \$4,916,403. Finally, a total \$1,303,623 is designated for carryover requests from unexpended FY 08 funds, and \$618,386 is designated to cover the FY 09 budgeted deficit.
- The County's total long-term obligations increased by \$817,105 (2%) during the current fiscal year.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### Government-wide financial statements

The government-wide financial statements are designed to provide the readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of how the financial position of the County may be changing. Increases in net assets may indicate an improved financial position; however, even decreases in net assets may reflect a changing manner in which the County may have used previously accumulated funds.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, (e.g., uncollected taxes and earned but unused vacation leave).

#### Overview of the Financial Statements (Continued)

#### Government-wide financial statements: (Continued)

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government administration, judicial administration, public safety, public works, health and welfare, parks, recreation and cultural, community development, and education. The County did not operate any business-type activities.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate school board, a legally separate industrial development authority and a legally separate sanitary authority for which the County is financially accountable. Financial information for these *component units* is reported separately from the financial information presented for the primary government itself. The government-wide financial statements can be found on pages 11 through 13 of this report.

#### Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

The County maintains twelve individual governmental funds. The Conservation Easement Fund was added in FY 08 to ensure that local match commitments could take place during the annual budget process, rather than as supplemental appropriations when grants became available. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, and the Virginia Public Assistance Fund both of which are considered to be major funds. Data from the other nine County funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

#### Overview of the Financial Statements (Continued)

#### Fund financial statements: (Continued)

The County adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 14 through 17 of this report.

The County maintains one type of *Proprietary Fund*. The County reports an internal service fund to account for the financing of health insurance provided to the various departments and the component unit school board. The internal service fund is reported on Exhibits 8-10 found on pages 19 through 21 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund statement can be found on page 18 of this report.

#### Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22 through 46 of this report.

#### Other information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning budgetary comparisons for the general fund. Required supplementary information can be found on page 47 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found starting on page 50 of this report.

#### **Government-Wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$18 million at the close of the most recent fiscal year. A large portion of the County's net assets (\$5.8 million, 32% of total) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e., the County's investment in capital assets are of a permanent nature as assets acquired are generally not sold or otherwise disposed of during their useful life).

#### Government-Wide Financial Analysis (Continued)

The following table provides a comparative summary of the County's Statement of Net Assets:

#### County of Clarke, Virginia Summary of Net Assets As of June 30, 2008 and 2007

		Governmental Activities		
		2008	_	2007
Current and other assets	\$	43,415,141	\$	43,486,518
Capital assets	,	17,695,912	•	14,749,690
Total assets	\$_	61,111,053	\$	58,236,208
			_	_
Long-term liabilities outstanding	\$	41,147,517	\$	40,330,412
Other liabilities		2,146,921		2,410,010
Total liabilities	\$_	43,294,438	\$_	42,740,422
Net assets:				
Invested in capital assets, net of				
related debt	\$	5,803,987	\$	4,910,297
Restricted		43,853		43,191
Unrestricted		11,968,775		10,542,298
Total net assets	\$_	17,816,615	\$	15,495,786

An additional portion of the County's net assets (\$43,853) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$11.9 million) may be used to meet the County's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the County is able to report positive balances in all three categories of net assets, both for the County as a whole, as well as for its separate governmental activities.

As noted previously, the County's net assets increased by \$2.3 million during the current fiscal year. This increase primarily results from the paydown of \$1.6 million of principal on the debt for the new high school prior to construction and will consequently reverse when the construction is completed.

#### Government-Wide Financial Analysis (Continued)

**Governmental activities** increased the County's net assets by \$2.3 million. The following table summarizes the County's Statement of Activities:

# County of Clarke, Virginia Changes in Net Assets Years Ended June 30, 2008 and 2007

		Governmental Activities			
		2008		2007	
Revenues:					
Program revenues:					
Charges for services	\$	1,357,592	\$	1,289,182	
Operating grants and contributions		2,724,781		2,831,457	
Capital grants and contributions		375,577		609,080	
General revenues:					
Property taxes		15,859,066		15,104,767	
Other taxes		2,350,951		2,457,607	
Unrestricted revenues		1,686,739		1,265,352	
Miscellaneous		96,343		480,258	
Grants and contributions not restricted to					
specific programs	_	2,846,105	_	2,728,288	
Total revenues	\$_	27,297,154	\$_	26,765,991	
Expenses:					
General governmental administration	\$	2,060,607	\$	1,696,286	
Judicial administration	·	421,845	·	420,489	
Public safety		3,447,907		3,307,884	
Public works		1,244,607		1,157,030	
Health and welfare		2,136,119		2,565,678	
Parks, recreation, and cultural		961,293		898,356	
Community development		1,096,427		1,267,673	
Interest on long-term debt		1,761,950		1,289,965	
Education		11,845,570		11,373,409	
Total expenses	\$_	24,976,325	\$_	23,976,770	
Increase (decrease) in net assets	\$	2,320,829	\$	2,789,221	
Net assets - beginning of year, as adjusted		15,495,786	_	12,706,565	
Net assets - end of year	\$_	17,816,615	\$_	15,495,786	

Generally, net asset changes are for the difference between revenues and expenses. Key elements of this net increase are as follows:

- Increase in revenues due to the increase in capital.
- Paydown of \$1.6 million in principal for the new high school debt issue

#### Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds**: The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$14.58 million, an increase of \$1.2 million in comparison with the prior year. Of this total amount, \$13.89 million or 94.09% constitutes *unreserved fund balance*, which is available for spending at the County's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed to a specific purpose.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$13.10 million. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 72% of total General Fund expenditures, while total fund balance represents the same amount.

The County Capital Improvements Fund accounts for all major general public improvements. The Capital Improvements Fund expended \$3,211,909 towards capital projects and received \$2,443,187 in various funds (excluding general fund transfers of \$780,929). Of the \$2,443,187 reported, the County received \$2,175,395 as proceeds of a lease revenue bond.

Reserved fund balances of \$32,140 for the Parks and Recreation Fund and \$11,713 for the Animal Care Fund are included in other governmental funds.

#### **General Fund Budgetary Highlights**

There was a decrease of \$1,170,484 between the original budget and the final amended budgeted expenditures. The significant differences can be summarized as follows:

- \$57,280 increase in general government administration budget.
- \$398,893 increase in final budget appropriations for public safety.
- \$37,131 increase in final public works budgeted expenditures.
- There was no change in the health and welfare budget expenditures.
- \$1,826,360 decrease in final budget appropriations for education.
- \$40,979 increase in final budget for parks, recreation and cultural.
- \$131,401 increase in final budget appropriations for community development.
- \$5,192increase in judicial administration.
- \$15,000 decrease in nondepartmental expenditures.

#### Capital Asset and Debt Administration

Capital assets: The County's investment in capital assets for its governmental activities as of June 30, 2008, amounts to \$17.70 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment and construction in progress. Major capital asset events during the current fiscal year included the following:

- Construction of the new Town/County government center
- Incurred expenditures for the design and research associated with construction of a new high school
- Construction of a new gymnasium at D.G. Cooley Elementary.

Capital assets, net of accumulated depreciation, are illustrated in the following table:

		<b>Governmental Activities</b>				
	- -	2008		2007		
Land	\$	745,500	\$	745,500		
Buildings		7,953,559		8,774,795		
Improvements		886,523		777,652		
Machinery & Equipment		1,341,332		320,728		
Construction in progress	_	6,768,998	_	4,131,015		
Total	\$_	17,695,912	\$	14,749,690		

Additional information on the County's capital assets can be found in note 6 on pages 33 through 34 of this report.

**Long-term debt**: At the end of the current fiscal year, the County had total outstanding debt of \$41.15 million and details are summarized in the following table:

	_	Governmental Activities				
		2008		2007		
Bonds Payable:						
General obligation bonds	\$	33,795,000	\$	35,400,000		
Literary loans		-		100,000		
Note Payables		4,149,184		2,156,809		
Capital lease		2,038,180		1,575,093		
Compensated absences		1,165,153		1,098,510		
Total	\$_	41,147,517	\$	40,330,412		
	_					

• Debt associated with governmental activities increases by \$817,105. The net increase is a result of regularly scheduled principal payments net of a new capital lease obtained for the Cooley Gymnasium in the amount of \$630,000, as well as an increase in the lease revenue bond for the joint facility in the amount of \$2,175,395.

Additional information on the County's long-term debt can be found in Note 8.

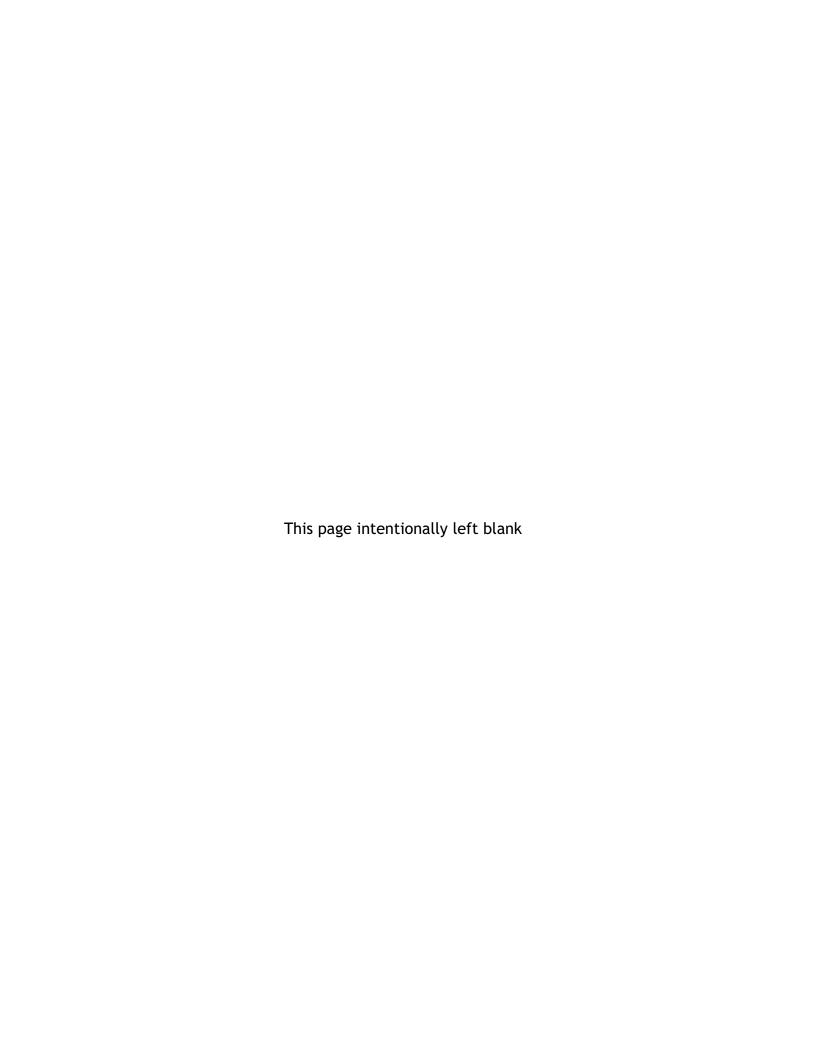

#### Economic Factors and Next Year's Budgets and Rates

- Revenue from the Commonwealth and Federal government are weak.
- Citizens are experiencing fiscal stress including unemployment.

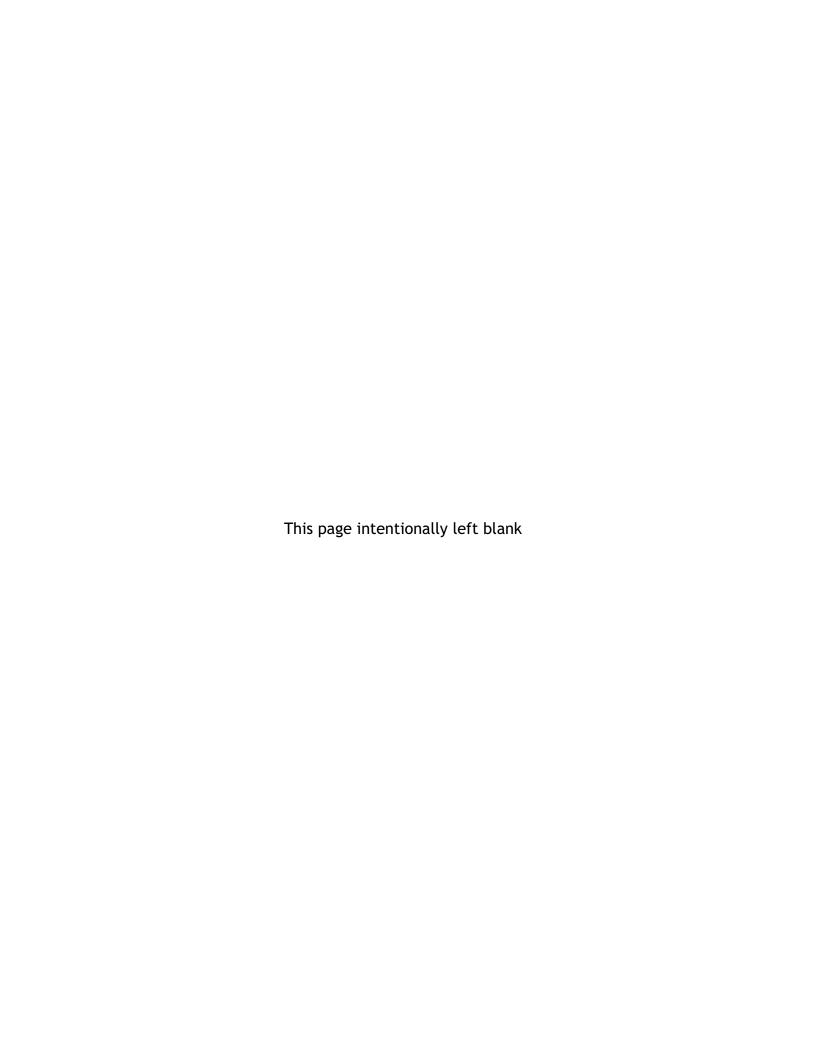

#### **Requests for Information**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Joint Administrative Services, County of Clarke, 524 Westwood Road, Berryville, VA 22611.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2008

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

\$ 1,219,614

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the depreciation exceeded capital outlays in the current period.

1,972,043

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

(104,428)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

(555, 575)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(66,643)

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.

(144,182)

Change in net assets of governmental activities

2,320,829

Notes to Financial Statements June 30, 2008

## Note 1—Summary of Significant Accounting Policies:

The County of Clarke, Virginia (the "County") is governed by an elected five member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and volunteer fire protection and rescue service, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Clarke, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

### Government-wide and Fund Financial Statements

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Changes in Net Assets) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The new government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary comparison schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the new reporting model, governments will continue to provide budgetary comparison information in their annual reports. An important change, however, is a requirement to add the government's original budget to the current comparison of final budget and actual results.

## A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Clarke (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

### B. Individual Component Unit Disclosures

Blended Component Unit. The County has no blended component units to be included for the fiscal year ended June 30, 2008.

Discretely Presented Component Units. The School Board members are elected by the citizens of Clarke County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding of the school board is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2008.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

## B. Individual Component Unit Disclosures: (Continued)

The Clarke County Sanitary Authority is responsible for water and sewer treatment for many citizens in Clarke County. The Sanitary Authority consists of five members appointed by the Board of Supervisors. The Board of Supervisors has the ability to impose its will on the Sanitary Authority and therefore it is included in the County's financial statements as a discrete presentation for the year ended June 30, 2008. Complete financial statements for the Authority are available from the Sanitary Authority at 524 Westwood Road, Berryville, Virginia.

The Clarke County Industrial Development Authority is responsible for industrial and commercial development in the County. The Authority consists of seven members appointed by the Board of Supervisors. The Authority is fiscally dependent on the County, and therefore, it is included in the County's financial statements as a discrete presentation for the year ended June 30, 2008. Complete financial statements for the Authority are available from the Authority at 102 N. Church Street, Berryville, Virginia.

## C. Other Related Organizations

### Included in the County's Financial Report

None

## D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflect both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

## D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state, and other grants for the purpose of funding specific expenditures are either recognized when earned, at the time other specific expenditures are recognized or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

#### 1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the General Fund as a major governmental fund.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

## D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

#### 1. Governmental Funds: (Continued)

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for government-wide reporting purposes.

<u>Debt Service Funds</u> - The Debt Service Funds accounts for debt service expenditure for the county and the school system. Payment of principal and interest on the county and school system's general long-term debt financing is provided by appropriations from the General Fund. The School debt service fund is reported as a non-major fund.

<u>Capital Projects Funds</u> - The County Capital Improvements Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by Proprietary Funds. The County reports the School Construction Fund, School Capital Projects Proffers Fund, Parks Construction Fund, and Sewer Construction Fund as non-major funds.

Special Revenue Funds - Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Special Revenue Funds consist of the following funds: Virginia Public Assistance Fund is presented as a major Special Revenue Fund. Comprehensive Services Act Fund, Joint Services Fund and Drug Enforcement Fund are all reported as non-major funds.

<u>Permanent Funds</u> - Permanent Funds account for earnings that are legally restricted for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry. The County reported the Animal Care Fund and Parks and Recreation Fund as non-major permanent funds.

<u>Fiduciary Funds - (Trust and Agency Funds)</u> - account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Private Purpose Trust and Agency Funds. Private Purpose Trust Funds utilize the accrual basis of accounting as described in the Proprietary Funds Presentation. Agency funds utilize the modified accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

2. <u>Proprietary Funds</u> - account for operations that are financed in a manner similar to private business enterprises. The proprietary fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary funds for the County consist of an internal service fund.

<u>Internal Service Funds</u> - account for the financing of goods and services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. The Internal Service Fund consists of the Self-Insurance Fund.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

## E. Cash and Cash Equivalents:

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments for the government, as well as for its component units are reported at fair value.

## F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

### G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$395,939 at June 30, 2008 and is comprised solely of property taxes.

### Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	Real Property	Personal Property
Levy	January 1	January 1
Due Date	June 5/December 5	June 5/December 5
	(50% each date)	(50% each date)
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

## H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation.

The Component Unit, Clarke County Sanitary Authority, a proprietary fund type, is required to capitalize its fixed assets including the infrastructure constructed.

The Component Unit, Industrial Development Authority of Clarke County does not have any capital assets to report.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized assets as of June 30, 2008 was immaterial.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives.

Assets	Years
Plant, equipment and system	20-45
Motor vehicles	5-10
Equipment	5-15
Infrastructure	25-50

### I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the statement of activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

## J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension cost as it accrues.

#### K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## L. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Designated portions of fund balance are established to indicate tentative plans for financial resource utilization in a future period. Designation of fund balance by specific purpose is as follows:

		Other
		Governmental
		Funds
Designated for:		
Animal care	\$	11,713
Parks and recreation	_	32,140
	_	_
Total designated for specific purposes	\$_	43,853

## M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

## N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 1—Summary of Significant Accounting Policies: (Continued)

## N. Long-term Obligations: (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### O. Prepaid Items

Prepaid expenditure in governmental funds are offset by reservation of fund balance.

# Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 15th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the Component Unit School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year and budgets are legally adopted for the General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Funds of the Primary Government and Component Unit School Board.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. Several Supplemental Appropriations were necessary during the fiscal year.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 3—Deposits and Investments:

## **Deposits**

All cash of the primary government and its discretely presented component units is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act (a multiple financial institution collateral pool), Section 2.2-4400 et. seq. of the <u>Code of Virginia</u> or covered by federal depository insurance. Under the act banks holding public deposits in excess of the amounts insured by FDIC must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the State Treasury Board. Savings and Loan institutions are required to collateralize 100% of deposits in excess of FDIC limits. Deposits covered by the Act are considered insured since the Treasury Board is authorized to make additional assessments.

#### Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

As of June 30, 2008 the County does not have a formal investment policy addressing the various types of risks related to investments.

#### **Credit Risk of Debt Securities**

The County's rated debt investments as of June 30, 2008 were rated by <u>Standard and Poor's</u> and the ratings are presented below using the <u>Standard and Poor's</u> rating scale.

Locality's Rate Debt Investments' Values

Rated Debt Investments		Fair Quality Ratings							
	_	AAA		4A	Α	A1	Unrated

## **External Investment Pools:**

The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission (SEC). The fair value of the positions in the Local Government Investment Pool (LGIP) are the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Notes to Financial Statements June 30, 2008 (Continued)

### Note 4—Due from Other Governments:

At June 30, 2008, the County has receivables from other governments as follows:

			Component Unit					
	Primary Government		School Board		Sanitary Authority	Industrial Development Authority		
Commonwealth of Virginia:								
Virginia Public Assistance funds	\$ 44,425	\$	-	\$	- \$	-		
State sales tax	-		345,000		-	-		
Constitutional officer reimbursements	141,498		-		-	-		
PPTRA	1,212,896		-		-	-		
Communication taxes	79,174		-		-	-		
Criminal Justice Grants	14,183		-		-	-

Notes to Financial Statements June 30, 2008 (Continued)

## Note 6—Capital Assets: (Continued)

Depreciation expense was charged to functions/programs/funds as follows:

#### Governmental activities:

General government	\$ 401,746
Public safety	98,473
Public works	4,030
Health and welfare	255
Parks, recreation and cultural	 74,593
Total Governmental activities	\$ 579,097
Component Unit School Board	\$ 725,010

Legislation enacted during the year ended June 30, 2002, Section 15.2-1800.1 of the <u>Code of Virginia</u>, 1950, as amended, has changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on-behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the new law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Clarke, Virginia for the year ended June 30, 2008 is that school financed assets in the amount of \$5,240,000 are reported in the Primary Government for financial reporting purposes.

### Component Unit-Sanitary Authority:

A summary of the component unit Sanitary Authority property, plant, and equipment at June 30, 2008 follows:

	_	Beginning Balance		Increases	Increases Decreases		
Capital assets not being depreciated: Land Construction in progress	\$_	13,200 325,230	\$	- 41,228	\$	- \$ 	13,200 366,458
Total capital assets not being depreciated	\$_	338,430	\$.	41,228	\$_	\$	379,658
Capital Assets being depreciated: Utility plant and equipment Less: accumulated depreciation	\$_	5,887,955 (1,462,946)		- (158,758)	\$	- \$ -	5,887,955 (1,621,704)
Total capital assets being depreciated, net	\$_	4,425,009	\$	(158,758)	\$_	- \$	4,266,251
Capital assets, net	\$_	4,763,439	\$	(117,530)	\$	- \$	4,645,909

Notes to Financial Statements June 30, 2008 (Continued)

### Note 7— Interfund Transfers:

Interfund transfers for the year ended June 30, 2008, consisted of the following:

Fund		Transfers In	_	Transfers Out
Primary Government:				
General Fund	\$	-	\$	4,341,523
School Debt Service		2,251,054		-
County Capital Improvements		780,929		-
Virginia Public Assistance		362,872		-
Comprehensive Services Act		331,597		-
Joint Administrative		457,548		-
Conservation Easement		59,978		
General Debt Service	_	97,545	_	
Total	\$	4,341,523	\$	4,341,523

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

## Note 8—Long-Term Obligations:

## **Primary Government:**

A summary of long-term obligations are as follows:

#### Note 9-Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$669,581 is comprised of the following:

<u>Deferred Property Tax Revenue</u>: Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$482,942 at June 30, 2008.

<u>Prepaid Property Taxes:</u> Property taxes due subsequent June 30, 2008, but paid in advance by the taxpayers totaled \$186,639 at June 30, 2008.

## Note 10—Commitments and Contingencies:

Federal programs in which the County and all discretely presented component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

#### Note 11-Defined Benefit Pension Plan:

#### A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

The County contributes to the Virginia Retirement System (VRS). All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.7 percent of their average final compensation (AFC) for each year of credited service (1.85% to sheriffs and if the employer elects, to other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living increases limited to 5% per year beginning in their second year of retirement. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 11—Defined Benefit Pension Plan: (Continued)

## A. Plan Description: (Continued)

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <a href="http://www.varetire.org/Pdf/publications/2007AnnuRept.pdf">http://www.varetire.org/Pdf/publications/2007AnnuRept.pdf</a> or obtained by writing to the System at P.O. Box 2500, Richmond, VA, 23218-2500.

## B. Funding Policy

#### **Primary Government**

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5% of their annual salary to the VRS. The employer may assume this 5% member contribution. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's contribution rate for the fiscal year ended June 30, 2008 was 7.94% of annual covered payroll.

## <u>Discretely Presented Component Unit - School Board (Non-professional)</u>

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5% of their annual salary to the VRS. The employer may assume this 5% member contribution. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended June 30, 2008 was 6.67% of annual covered payroll.

#### C. Annual Pension Cost

#### **Primary Government**

For fiscal year 2008, County's annual pension cost of \$310,415 (does not include employee share of \$195,476 which was assumed by the County) was equal to the County's required and actual contributions.

Three-Year Trend Information for County - Primary Government

Fiscal Year Ending		Annual Pension Cost (APC)	Percentage of APC Contributed	 Net Pension Obligation		
County:						
June 30, 2006	\$	140,708	100%	\$	-	
June 30, 2007		299,855	100%		-	
June 30, 2008		310,415	100%		-	

Notes to Financial Statements June 30, 2008 (Continued)

## Note 11—Defined Benefit Pension Plan: (Continued)

## C. Annual Pension Cost: (Continued)

## Primary Government: (Continued)

The required contribution was determined as part of the June 30, 2005 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) 7.50% investment rate of return, (b) projected salary increases ranging from 3.75% to 5.60% per year, and (c) 2.50% per year cost-of-living adjustments. Both (a) and (b) included an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis within a period of 20 years.

### Discretely Presented Component Unit - School Board (Non-professional)

For fiscal year 2008, School Board's annual pension cost of \$78,478 (does not include employee share of \$58,829 which was assumed by the School Board) was equal to the School Board's required and actual contributions.

		<u> </u>		
Fiscal Year Ending	 Annual Pension Cost (APC)	Percentage of APC Contributed	 Net Pension Obligation	
School Board: Non-Professional: June 30, 2006	\$ 55,077	100%	\$	_
June 30, 2007	77,102	100%		-
June 30, 2008	78.478	100%		_

The required contribution was determined as part of the June 30, 2005 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) 7.50% investment rate of return, (b) projected salary increases ranging from 3.75% to 5.60% per year, and (c) 2.50% per year cost-of-living adjustments. Both (a) and (b) included an inflation component of 2.50%. The actuarial value of the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The School Board's unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis within a period of 20 years.

# D. Funded Status and Funding Progress

### **Primary Government**

As of June 30, 2007, the most recent actuarial valuation date, the plan was 86.32% funded. The actuarial accrued liability for benefits was \$12,203,950, and the actuarial value of assets was \$10,534,745, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,669,205. The covered payroll (annual payroll of active employees covered by the plan) was \$3,737,797, and ratio of the UAAL to the covered payroll was 44.66%.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 11—Defined Benefit Pension Plan: (Continued)

## D. Funded Status and Funding Progress: (Continued)

## Discretely Presented Component Unit - School Board (Non-professional)

As of June 30, 2007, the most recent actuarial valuation date, the plan was 91.09% funded. The actuarial accrued liability for benefits was \$1,835,472, and the actuarial value of assets was \$1,672,020, resulting in an unfunded actuarial accrued liability (UAAL) of \$163,452. The covered payroll (annual payroll of active employees covered by the plan) was \$1,170,712, and ratio of the UAAL to the covered payroll was 13.96%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

## E. <u>Professional Employees - Discretely Presented Component Unit School Board:</u>

### Plan Description

The Clarke County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the State legislature. The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. That report may be obtained by writing to the System at P.O. Box 2500, Richmond, Virginia 23218-2500 or a copy may be downloaded from the VRS website at <a href="http://www.varetire.org/PDF/2007/AnnuRept.pdf">http://www.varetire.org/PDF/2007/AnnuRept.pdf</a>.

### Funding Policy

Plan members are required to contribute 5.0% of their annual covered salary and Clarke County School Board is required to contribute at an actuarially determined rate. The current rate is 10.30% of annual covered payroll. The contribution requirements of plan members and Clarke County School Board are established and may be amended by the VRS Board of Trustees. The School Board's contributions to VRS for the years ending June 30, 2008, 2007, and 2006 were \$1,077,874, \$954,891, and \$659,398 respectively, equal to the required contributions for each year.

## Note 12—Litigation:

At June 30, 2008, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to such entities.

Notes to Financial Statements June 30, 2008 (Continued)

## Note 13—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County carries a broad range of insurance coverages, which management considers prudent for the protection of the County's assets and operations. Coverages currently include \$2,000,000 commercial general liability, \$2,000,000 automobile liability, and \$2,000,000 public official's liability. The property policy provides insurance coverage for all of the County's real and personal property up to the replacement cost value of the asset.

## **Self-Insurance**

Previously the County utilized a self-insurance program for employee health insurance. The County began accounting for this program in an internal service effective July 1, 2005. A summary of claims liability for the year ended June 30, 2008 as follows:

Unpaid claims, June 30, 2007	\$	204,008
Incurred claims		72,606
Claim payments		276,614
Unpaid claims, June 30, 2008	\$_	-

As of June 30, 2007 the County elected to terminate the self-insurance plan. There was no "Incurred but not Reported" liability at June 30, 2008.

The Clarke County School Board is exposed to various risks of loss related torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School Board carries a broad range of insurance coverages, which management considers prudent for the protection of the School Board's assets and operations. Coverages currently include \$2,000,000 commercial general liability, \$2,000,000 automobile liability, and \$2,000,000 public official's liability. The property policy provides insurance coverage for all of the School Board's real and personal property up to the replacement cost value of the asset.

#### Note 14—Conduit Debt:

The County has issued economic development revenue bonds through the Clarke County Industrial Development Authority. All responsibility for the payment of this debt rests with the Borrower. The County and the Authority have no responsibility for the payment of this debt. Outstanding conduit debt obligations are as follows at June 30, 2008:

Description		Original Issue	_	Outstanding June 30, 2008
Heritage Child Development Center, Inc.	\$	450,000	\$	300,387
Winchester Medical Center, Inc.		70,000,000		70,000,000

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

# To the Honorable Members of the Board of Supervisors County of Clarke, Virginia

We have audited the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Clarke, Virginia as of and for the year ended June 30, 2008, which collectively comprise the County of Clarke, Virginia's basic financial statements and have issued our report thereon dated December 9, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities*, and *Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the County of Clarke, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Clarke, Virginia's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the County's financial statements that is more than inconsequential will not be prevented or detected by the County's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the County's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County of Clarke, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Supervisors, federal awarding agencies and pass-through entities and is not intended and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

To the Honorable Members of the Board of Supervisors County of Clarke, Virginia

### Compliance

We have audited the compliance of the County of Clarke, Virginia with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The County of Clarke, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County of Clarke, Virginia's management. Our responsibility is to express an opinion on the County of Clarke, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States*, *Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Clarke, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of County of Clarke, Virginia's compliance with those requirements.

In our opinion, the County of Clarke, Virginia complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

### Internal Control Over Compliance

The management of the County of Clarke, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County of Clarke, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A control deficiency in an County's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the County's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the County's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Supervisors and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2008

### Note 1 - General

The accompanying schedule of expenditures of federal awards presents the activity of all federally assisted programs of the County of Clarke, Virginia. The County's reporting entity is defined in note 1 to the County's basic financial statements. All federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on the schedule.

### Note 2 - Basis of Accounting

The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting, which is described in note 1 to the County's basic financial statements.

### Note 3 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:	
Primary government:	
General Fund	\$ 2,330,106
Special Revenue Funds:	
Virginia Public Assistance Fund	544,899
Capital Projects Funds:	
County Capital Improvements Fund	64,705
Total primary government	\$ 2,939,710
Component Unit Public Schools:	
School Operating Fund	\$ 685,236
School Cafeteria Fund	200,822
School Capital Improvement Fund	22,750
Total component unit public schools	\$ 908,808
Total federal expenditures per basic financial statements	\$ 3,848,518
Total federal expenditures per the Schedule of Expenditures of Federal Awards	\$ 3,848,518

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2008

### Section I - Summary of Auditor's Results

### Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weaknesses identified?

Signficant deficiencies identified not considered to be material weaknesses?

Noncompliance material to financial statements noted?

### Federal Awards

Internal control over major programs:

Material weaknesses identified?

Signficant deficiencies identified not considered to be material weaknesses?

No

Type of auditor's report issued on compliance for major programs:

Unqualified

Any audit findings disclosed that are required to be reported in accordance with Circular A-133,

Section .510 (a)?

Identification of major programs:

CFDA # Name of Federal Program or Cluster

10.766 Community Facilities Loans and Grants

Dollar threshold used to distinguish between Type A and Type B programs \$300,000

Auditee qualified as low-risk auditee?

#### **Section II - Financial Statement Findings**

None

### Section III - Federal Award Findings and Questioned Costs

None

### **Prior Year Audit Findings**

None
