Code of Virginia

§ 33.2-331. Annual meeting with county officers; six-year plan for secondary state highways; certain reimbursements required.

For purposes of this section, "cancellation" means complete elimination of a highway construction or improvement project from the six-year plan.

The governing body of each county in the secondary state highway system may, jointly with the representatives of the Department as designated by the Commissioner of Highways, prepare a six-year plan for the improvements to the secondary state highway system in that county. Each such six-year plan shall be based upon the best estimate of funds to be available to the county for expenditure in the six-year period on the secondary state highway system. Each such plan shall list the proposed improvements, together with an estimated cost of each project so listed. Following the

preparation of the plan, the board of supervisors or other local governing body shall conduct a public hearing after publishing notice in a newspaper published in or having general circulation in the county once a week for two successive weeks and posting notice of the proposed hearing at the front door of the courthouse of such county 10 days before the meeting. At the public hearings, which shall be conducted jointly by the board of supervisors and the representative of the Department, the entire six-year plan shall be discussed with the citizens of the county and their views considered. Following the discussion, the local governing body, together with the representative of the Department, shall finalize and officially adopt the six-year plan, which shall then be considered the official plan of the county.

At least once in each calendar year, representatives of the Department in charge of the secondary state highway system in each county, or some representative of the Department designated by the Commissioner of Highways, shall meet with the governing body of each county in a regular or special meeting of the local governing body for the purpose of preparing a budget for the expenditure of improvement funds for the next fiscal year. The representative of the Department shall furnish the local governing body with an updated estimate of funds, and the board and the representative of the Department shall jointly prepare the list of projects to be carried out in that fiscal year taken from the six-year plan by order of priority and following generally the policies of the Board in regard to the statewide improvements to the secondary state highway system. Such list of priorities shall then be presented at a public hearing duly advertised in accordance with the procedure outlined in this section, and comments of citizens shall be obtained and considered. Following this public hearing, the board, with the concurrence of the representative of the Department, shall adopt, as official, a priority program for the ensuing year, and the Department shall include such listed projects in its secondary highways budget for the county for that year.

At least once every two years following the adoption of the original six-year plan, the governing body of each county, together with the representative of the Department, shall update the six-year plan of the county by adding to it and extending it as necessary so as to maintain it as a plan encompassing six years. Whenever additional funds for secondary highway purposes become available, the local governing body may request a revision in its six-year plan in order that such plan be amended to provide for the expenditure of the additional funds. Such additions and extensions to each six-year plan shall be prepared in the same manner and following the same procedures as outlined herein for its initial preparation. Where the local governing body and the representative of the Department fail to agree upon a priority program, the local governing body may appeal to the Commissioner of Highways. The Commissioner of Highways shall consider all proposed priorities and render a decision establishing a priority program based upon a consideration by the Commissioner of Highways of the welfare and safety of county citizens. Such decision shall be binding.

Nothing in this section shall preclude a local governing body, with the concurrence of the representative of the Department, from combining the public hearing required for revision of a six-year plan with the public hearing required for review of the list of priorities, provided that notice of such combined hearing is published in accordance with procedures provided in this section. All such six-year plans shall consider all existing highways in the secondary state highway system, including those in the towns located in the county that are maintained as a part of the secondary state highway system, and shall be made a public document.

If any county cancels any highway construction or improvement project included in its six-year plan after the location and design for the project has been approved, such county shall reimburse the Department the net amount of all funds expended by the Department for planning, engineering, right-of-way acquisition, demolition, relocation, and construction between the date on which project development was initiated and the date of cancellation. To the extent that funds from secondary highway allocations have been expended to pay for a highway construction or improvement project, all revenues generated from a reimbursement by the county shall be deposited into that same county's secondary highway allocation. The Commissioner of Highways may waive all or any portion of such reimbursement at his discretion.

The provisions of this section shall not apply in instances where less than 100 percent of the right-of-way is available for donation for unpaved highway improvements.

Re: Special Events permit change

Dear Mr. Ash,

Shepherds Ford Productions LLC would like to amend it's special event permit to include the sale of beer within a fenced area commonly referred to as a "beer garden". All required licensure, and procedures would be acquired and provided at the State standards by the vendor. Additional security will be scheduled during the regulated hours of operation. We believe that there is no significant change to operation of our event. We are also not sure how to apply the Agri-tourist aspect as these are local Farm Breweries bringing product to market, just as all our other Farmers Market participants do. We are not sure what approval if any is actually required. Your guidance on this matter would be greatly appreciated.

Our best regards to You and your staff,

Frazer Watkins Luthurs

3) Citizens Comment Period

Wendy Clatterbuck, Boyce: spoke in opposition to the proposed hydroponic greenhouse on Senseny Road. She stated that she had attended Pete Maynard's presentation because their farm was located approximately half a mile away. She informed the Board that she had moved from Loudoun County to for the peace and tranquility. She expressed fear and concern for the impact of the ten-acre greenhouse on the neighborhood and the aquifer. She put forth that according to USGS statistics the average person uses 100 gallons of water per day; so, opined that if the facility used 40,000 gallons per day, it would equate to the daily water usage of 400 people. She continued that during summer months the amount used could be greater than that used by 1,200 persons – greater than the population of the Town of Boyce. Ms. Clatterbuck noted that the Town of Berryville charges \$8.40 per thousand gallons. She concluded her comments stating that she found the project horrifying.

<u>Pete Maynard</u>, Berryville: distributed his written comments to the Board.

Dear Board Members,

I am writing to request that pursuant to the Code of Virginia. § 62.1-257 the Clarke County Board of Supervisors promptly petition the State Water Commission to conduct a "Ground Water Management Area Proceeding" to evaluate the potential impact on the aquifer and on the wells of surrounding properties of the proposed hydroponic growing facility on the property identified as Clarke County tax map parcels 12-A-33 and 12-A-331.

The code referenced above states in part, "the continued, unrestricted usage of ground water is contributing and will contribute to pollution and shortage of ground water. thereby jeopardizing the public welfare. safety and health. It is the purpose of this Act to recognize and declare that the right to reasonable control of all ground water resources within this Commonwealth belongs to the public and that in order to conserve. protect and beneficially utilize 'the ground water of this Commonwealth and to ensure the public welfare, safety and health, provision for management and control of ground water resources is essential."

Clearly, the intent of the act is to preserve and protect the health, safety and welfare of the citizens. That is the responsibility of the Board of Supervisors as well.

The proposed hydroponic growing facility will require between 111,000 and 200,000 gallons per day of new water from the aquifer (depending on what equipment, processes and water conservation methods are utilized) in the summer and slightly over half of that per day during the winter months. With the wells of surrounding residential properties already producing marginal amounts of water (+/- five gallons per minute) the proposed facility has significant potential for interfering with those residential wells. Further, there are indications that the ground water levels in the area are already declining and there are no indications to indicate a reversal of this trend. Given the above conditions, it is reasonably foreseeable that the water demand of the proposed hydroponic growing facility will overdraw the available ground water supply.

A ground water study conducted by competent and qualified professionals will assist the Clarke County Board of Supervisors to effectively evaluate the impacts of the proposed hydroponic growing facility. With this knowledge, and ONLY with this knowledge, will the Board be able to objectively evaluate the impacts of the proposed facility and fulfill its legally required oversight responsibilities.

I urge you to initiate the petition for the "Ground Water Management Area Proceeding" at the earliest opportunity.

Respectfully.
II Digitally Signed//
Peter C. Maynard

§ 62. I -254. Findings and purpose.

The General Assembly hereby determines and finds that, pursuant to the Groundwater Act of 1973, the continued, unrestricted usage of ground water is contributing and will contribute to pollution and shortage of ground water, thereby jeopardizing the public welfare, safety and health. It is the purpose of this Act to recognize and declare that the right to reasonable control of all ground water resources within this Commonwealth belongs to the public and that in order to conserve, protect and beneficially utilize the ground water of this Commonwealth and to ensure the public welfare. safety and

health, provision for management and control of ground water resources is essential. 1992, c. 812.

§62.1-257. When Board may initiate a ground water management area study proceeding; hearing required.

- A. The Board upon its own motion or, in its discretion, upon receipt of a petition by any county, city or town within the area in question. may initiate a ground water management area proceeding, whenever in its judgment there may be reason to believe that:
 - 1. Ground water levels in the area are declining or are expected to decline excessively;
 - 2. The wells of two or more ground water users within the area are interfering or may reasonably be expected to interfere substantially with one another;
 - 3. The available ground water supply has been or may be overdrawn; or
 - 4. The ground water in the area has been or may become polluted. Such pollution includes any alteration of the physical, chemical or biological properties of ground water which has a harmful or detrimental effect on the quality or quantity of such waters.
- B. If the Board finds that any one of the conditions required above exists, and further finds that the public welfare, safety and health require that regulatory efforts be initiated, the Board shall by regulation declare the area in question to be a ground water management area. The Board shall include in its regulation a definition of the boundaries of the ground water management area. The Board shall mail a copy of the regulation to the mayor or chairman of the governing body of each county. city or town within which any part of the area lies. 1992. c. 812.

Mr. Maynard made the following points.

- 1) Expert opinion on groundwater usage was sought; and, using known facility specifications, he provided an 111,000-gallon-per-day estimate for new water usage during summer months.
- 2) The Virginia Department of Health uses the estimate of 75 gallons of water per day per person 300 gallons per day for a family of four.
- 3) The proposed buyers did drill a 6-inch, 400-foot-deep well on the property that yields 46 gallons per minute or 66,000 gallons per day. He opined that if the well does not provide enough for operations, other than meeting set back requirements, there is nothing to prevent the owners from drilling more wells.
- 4) Asked the Board to petition the State Water Control Board for a groundwater study.
- 5) Asked the Board to consider continuing monthly meetings of the Economic Development Advisory Committee meetings instead of bi-monthly as recently proposed by Len Capelli.

Chairman Weiss clarified "Mr. Capelli is not doing anything on his own without direction from the Board. There is no collusion: We have been through this Mr. Maynard. We have explained it to you many, many times. You continue to impugn the integrity of the people who work for us. We don't appreciate that. It is not necessary. You have valid points. We've agreed that you have valid points. Personalization of it is not helpful for you. It is, frankly, annoying. So, thank you."

Mr. Maynard responded that he would take that under advisement.

<u>Timothy Johnson</u>, Bluemont: spoke in opposition to the proposed hydroponic lettuce facility. He informed the Board that he recently submitted a piece to the Winchester Star addressing the proposed facility from an economic perspective and not environmental. He put forth that he had done a significant amount of research on the developer and had concerns. He strongly encouraged Board members to look at the depositions from Cuyahoga County involving the developer. He opined that it was apparent from the depositions, taken three years ago, that VFT Global played a shell game openly admitting that there were no assets in its companies. He asked the Board to do as much research as they could on this developing. Mr. Johnson concluded by expressing concern as a resident and business owner about the potentially adverse effect on taxes.

Richard Taylor, Opequon Road: spoke in opposition to the proposed hydroponic lettuce facility. He told the Board that he owns 66 acres with two homes and an outbuilding on the property and two wells, 495-feet deep and 285-feet deep. He expressed concern regarding the potential negative impact of the hydroponic greenhouse on groundwater, the economy, and property values. He wondered if there were any studies on the impact of such facilities on property values. He encouraged the Board to take a good hard look at this proposed use and urged it not to change the Clarke's character.

Chairman Weiss responded to comments stating, "Ladies and gentlemen, I have been debating as to when to give a partial lecture; and, today is just as good as any day. Sliding scale zoning is, I believe, the second most restrictive zoning in the nation. We certainly have the most restrictive zoning in Virginia. Because it has been here so long, people have forgotten the legal basis for sliding scale zoning. The legal basis is production agriculture. Right to farm also falls in on this; but, sliding scale is based on production agriculture. That can be a very small production farm or a very large production farm.

My statement today is not in favor of this facility; but, I am concerned that emails that I see and statements that I see that Clarke County mustn't change. Clarke County is going to change. It is a managed growth system that we have here. It is not a preventative growth system. That is in housing, agriculture, and industry; and, agriculture is an industry. I farm. I think you all know that. I farm a large farm. It is basically conventional but it does not have to be. If it is necessary for farmers to do

Board of Supervisors Meeting Minutes For February 20, 2018 - Regular Meeting

different things in different ways to make money in agriculture that is what they do. That is what Clarke County provides them a basis to do.

You can have the debate, if you wish, whether this is agriculture or not; but, if it produces food, according to the State, it is agriculture. This may or may not come and it has issues. But, that 85 acres, if you want to put in a poultry house, it takes about 15 acres of land; so, you could put 5 poultry houses on that. You could put a dairy on that. You can put large scale agriculture on smaller properties and they will have the effect that they have large uses in agriculture. That is how you all get food. That is how you have leather on your shoes to walk into the building with. That is how you have fuel to put in your car. So, while I appreciate the emotional aspect of this and the concern, this thing that we don't know what this is, has caused us all.

Let us not lose track of the fact that we are here as an agricultural community. The reason that folks live in relative isolation out in their houses, even if it happens to be a cluster of homes, is because we have a defensible sliding scale zoning based on production agriculture that can be a vineyard or whatever you want it to be. But, I repeat, agriculture uses resources.

So, we should all be very careful as a community, as a Board, that we do not let this type of structure and this new idea derail and put in jeopardy what we have done here for 30 years and what we hope to continue to do. The reason people move here is because of the people that came here before us that created this system. So, be careful as you go through this; be careful not to jeopardize the system.

Most importantly, we are all here for very little reimbursement to work with you and for you; and, the people that work for this County, the employees of this County, are dedicated people who could make more money elsewhere. But, they have chosen to stay here and live here. I repeat, there is no collusion. There is no desire to side step the public witnesses or authority that you have given us to represent you. As you can see, I find it rather irritating that our people are being accused of malfeasance; and, it is not happening. Encase someone wants to say that I protest too loudly, that is not the case. So, I will back myself down now; and, I appreciate you all being here. You are most welcome to come every month and we will continue to work through this process. But, those are my thoughts. The Board may or may not share them; but, they are on the record now. I hope that I have at least explained myself well. Thank you all.

Michelle Timberlake, Summerville farm: Stated that she had a production farm and produced cattle and she was concerned about well water usage. She put forth that an export that had spoken in regard to the lettuce production facility made comment that in his expertise it would be 111,000 gallons of water usage per day during summer months and 40,000 gallons in winter months. She expressed concern for the production of her farm and asked who will be concerned about the production of their farm when, if, their wells go dry. She did note the land had not yet been purchased; but, that citizen's concerns were coming from the possible purchase and stated

Board of Supervisors Meeting Minutes For February 20, 2018 - Regular Meeting

purpose and did not want to get behind it wanting their concerns to be acknowledged and recognized not just for property values but for farm production. She stated that she wanted to continue to farm and was concerned about production too.

Jim Lamb, Moose Road: spoke in opposition to the proposed hydroponic greenhouse. He opined that the Board of Supervisor's task was the County as a whole. He furthered opined that he believed the community was asking the Board to ask the State to conduct a water study on the aquifer, the water system, to ensure that fifteen to twenty wells don't go dry if this facility is opened because it was going to use an astronomical amount of water. He put forth that 1,666 beef cattle, a very large-scale operation, would consume the same amount of water daily as proposed for this facility. He informed the Board that he raises beef on property close by the proposed facility and is concerned about the water.

4) VDOT Update

Ed Carter, Assistant Residency Administrator, provided the following update:

Maintenance

- Weather has limited VDOT's scope of operations to primarily brush cutting and boom axing.
- VDOT has been cutting brush on routes 617, 619, 653, and plan to continue on 653 and 672 this month.
- VDOT operated the boom ax on Rt. 601 and will continue on this route.
- VDOT plans to address low shoulders on primary's as weather permits.
- VDOT has mobilized for several weather events and even though they were small it still required significant preparation for each event. VDOT anticipates these same scenarios for the next several weeks.
- VDOT will be repairing potholes as they are reported.

Projects:

- Rt. 671 Bridge Replacement Board discussion:
 - VDOT's Environmental group advised that the study would take two years; however, the funds are in a pot that expires in 2020. VDOT has determined to replace the bridge in its current alignment. The bridge will continue to flood but less often.

Morgan Ford Bridge replacement – Road is now open but project is not yet complete.
 Remainder of work will be done under traffic with lane closures. Motorist can expect delays at certain times. Final completion date is scheduled for June of this year.

Board Issues:

- Rt. 638 Howellsville Road speed limits Awaiting sign placement. Ready to go up as soon as Mr. Carter receives professional engineer's written approval.
- Parking improvements Rt. 7 Appalachian Trail:
 - VDOT still owns the R/W.
 - VDOT sent Alison Teetor the renewed permit to proceed with the project.
 - Six No Parking Between Signs placed on a half mile stretch on each side and at the entranceway will be erected before the end of the month if received.
- Tree trimming on Rt. 7 Board discussion
 - VDOT reviewed today and did not find a sight-distance issue.
 - Trees are located on VDOT right of way and trimmed sides two years ago. Mr.
 Carter noted that removal of the trees would exhaust the entire tree-trimming
 budget for the year. He reminded that there were literally thousands of dead ash
 trees that need to be removed.
 - Chairman Weiss asked if VDOT could trim and maybe take down the first two trees.
 - o Because mailboxes sit out from the trees, they present a greater sighting hazard.

Supervisor Comments:

- Supervisor Byrd:
 - Old Charlestown Road Bridge Replacement:
 - Last month the property owner informed the Board that VDOT had not spoken with him about the replacement and was against the Board's preferred option.
 - Mr. Carter advised that VDOT forwarded to David Ash and David Weiss an email which showed that the property owner was for that option.
 - VDOT met with the owner twice on site before the email was received from the property owner's engineer.
 - It was determined that there was a miscommunication between VDOT and the
 property owner; however, regardless of the property owner's position, VDOT,
 to preserve the funding, cannot pursue that option.

 Road Pre-treatment: VDOT has done a nice job of treating roads. Mr. Carter stated that it is brine solution with sodium chloride added below a certain temperature.

Supervisor Catlett

o 723 Bridge: Is still on the schedule and close to going out for advertisement.

Supervisor Daniel

- Proposed Hydroponic Greenhouse on Senseny Road:
 - No written request has been presented to VDOT; and without this, there is insufficient information to comment.
 - There have been some preliminary discussions.
 - VDOT recommendation for entranceway requirements depends on the amount of traffic generated by the facility, speed limit of the road, and sight distance.

5) Blue Ridge Food Bank Presentation by Kim Johnson

Kim Johnson, Blue Ridge Food Bank, appeared before the Supervisors to review service area, services provided, and activities. Highlights of her presentation include:

- Last year, provided food to persons in an area south from Lynchburg on both sides of the Blue Ridge, 25 towns, 8 cities, and 4 regions, including Clarke, in the Lord Fairfax District:
 - Average of 105,000 people per month.
 - o 25.3 million pounds per year.
- Clarke County partners in food distribution include:
 - FISH on Main Street in Berryville distributes food every Wednesday and Saturday.
 - Clarke County Distribution at Duncan Memorial Church a coalition of 12 local churches – third Saturday of each month.
 - Christ Church Cares Millwood monthly distribution on the first Saturday with the first Friday designated for seniors.
- Want to reach more of the food insecure population in Clarke County. Food insecure means a person that is not getting enough food and/or is uncertain about how they will secure their next meal.

- Feeding America's annual survey estimates that last year there were 1,200 persons in Clarke County.
- Current distribution in the County reaches approximately 400 persons.
- An outreach effort is being planned that will include posters, letters, and identifying impediments to access with seniors in particular.
- Requesting the Board's help in getting the word out to constituents.
- Working toward distributing more food including perishables. Perishables do present storage issues.
- Contact Information:
 - Angie Jones, Clarke County Department of Social Services
 - Wendy Clatterbuck, Christ Church Cares
 - o Anne Cushman, FISH
- In response to Supervisor Byrd's inquiry about the food stamp program, Ms. Johnson responded,
 - Foods stamps is a separate program administered by the federal government.
 - o In her experience, only a relatively small percentage abuse the program.
 - o Food insecurity and poverty are not synonymous and many that use the foods banks are have jobs, are working, and are not in the food stamp program.
- Transportation Issues:
 - Exploring options for those who cannot get to the pantries through delivery or shuttle service.
 - There are opportunities to do food delivery.
 - REACH program in Clarke delivers 20 bags of food through the Senior Center.
 - These programs relay heavily on volunteers.

Chairman Weiss stated that if the County could be of further assistance to let the Board know. He also thanked Ms. Johnson for her presentation and the good work she was doing in Clarke County and the region.

B. <u>Board of Supervisors Approval of Conservation Easement Authority Deed Template</u> Change in Response to Recent State Supreme Court Judgment

MEMORANDUM

TO: Board of Supervisors, David Ash

FROM: Conservation Easement Authority, Alison Teetor

DATE: March 13, 2018

SUBJECT: Revised Deed of Easement template

The Conservation Easement Authority has proposed changes to its deed template that must receive final approval from the Board of Supervisors. The changes are in response to the recent State Supreme Court judgment described below.

In 2016, Supreme Court of Virginia heard a case between Wetlands America Trust, Inc. v. White Cloud Nine Ventures regarding a conservation easement ambiguity resolved in favor of allowing construction. Wetlands America Trust, Inc. (WAT) holds a conservation easement on Virginia property owned by White Cloud Nine Ventures, L.P. (White Cloud). White Cloud purchased the property to lease it to a related entity to use for a vineyard, grazing and milking cows, raising wheat, constructing a building to be used for a creamery, bakery, wine storage, and the tasting, sampling and sale of wine, cheese and bakery products. White Cloud began construction of the building, an adjoining parking lot, a new road and a new bridge. WAT sued, seeking a declaratory judgment that the construction and intended "commercial use" violated the conservation easement's restrictive covenants. The trial court denied the declaratory judgment and the Supreme Court upheld the lower court's opinion. Crucial to White Cloud's victory in this case were provisions in WAT's deed template that were ambiguous.

As a result of the court case the Virginia Outdoors Foundation and Piedmont Environmental Council recently updated their deed templates to strengthen the ambiguous sections relating to commercial uses. The Easement Authority last updated their deed template in March 2016 but had not addressed any of the issues discussed in the Court case. Beginning in May 2017, staff obtained copies of the new templates from VOF and PEC and Michelle Jones, attorney and member of the Easement Authority, reviewed the changes and made recommendations to strengthen the Authority's template. After many months of discussion and final review and approval by Mr. Mitchell, the Authority approved and recommends approval of the attached template.

- Determination of tax assessments for the solar farm are under review and could be adjusted.
- Tax Relief for the Elderly and Disabled reflects estimate based on FY2018 actual. If an applicant qualifies for tax relief, it will be granted regardless of budgeted amount.

Tom Judge informed the Board that the total project cost estimate was calculated using low bid, expenditures to date, and funds still encumbered for a total project cost of \$900,115.15.

Chairman Weiss made the Board aware that this was a time-sensitive decision noting that the County must have all funds available before entering the contract.

There was some discussion about available funds including return of unexpended funds from the Schools' Primary renovation project, which has not been finalized by Superintendent Bishop, who continues to work with H&W Construction to resolve final charges for liquidated damages.

Tom Judge assured the Supervisors that anticipated carryover funds would be available to replenish funds.

Supervisor Byrd asked for an update on the budget.

Tom Judge responded that there were some issues that will have to be resolved before the final adoption of the budget. He assured that he had not seen any changes since the Board of Supervisors last saw the budget on March 12. He reminded that there were still issues with taxes on the solar farm, potential Health Department savings, re-estimate of sales tax, and General Assembly budget. Mr. Judge informed the Board that the Governor and the House of Representatives were very close in budget; however, the County would lose \$130,000 in the Senate bill. He opined that the County could be adopting its budget before the State budget is adopted.

13) Miscellaneous Items

Local Burn Ban

David Ash informed the Board that on March 15 he imposed a burning ban at the request of Brian Lichty, Director of Fire, Emergency Medical Services, and Emergency Operations, and two of the volunteer Fire Chiefs, which he rescinded earlier today due to the current weather conditions with freezing rain, ice, sleet, and snow forecast for today and tomorrow.

Mr. Ash reminded that even though the local ban was lifted State law still applies to burning in the County.

Burning Ban Enacted

To: Director E911 Pam Hess

Sheriff Tony Roper

Chief Deputy Sheriff Travis Sumption

PC: Brian Lichty

Date: March 15, 2018

At the request of the Director of Fire, EMS, and Emergency Management Brian Lichty, I am exercising the authority delegated to me by the Board of Supervisors pursuant to Chapter 93, Article I, Section 93.3 to impose a prohibition on outdoor burning within the County of Clarke, to include without limitation, training fires, campfires, warming fires, brush piles, household trash,

Book	23
Page	284

stumps, fields, or any other material capable of spreading fire. The sole exception to this ban is the use of grills or stoves designed and used for preparing food and which contain fuel and fire within a metal or masonry container.

This ban shall be effective immediately, and shall continue in effect until such time as conditions warrant the repeal of the ban by either the County Administrator or the Board of Supervisors.

Violation of the ban authorized by Chapter 93, Article I, Section 93.3 of the County Code shall be considered a Class I misdemeanor and penalties imposed for violation of this ordinance shall be in addition to those imposed for violation of other state or local ordinances.

Individuals who have conducted outdoor burning activities within the last two weeks are asked to check the burn locations to verify that the fires are completely out. Extremely low humidity and predicted high winds greatly increase the potential of a rekindle of previous fires.

Individuals having questions regarding this matter should contact the County Administrator at (540) 955-5113.

David L. Ash

Burning Ban Rescinded

To: Director E911 Pam Hess,

Sheriff Tony Roper

Chief Deputy Sheriff Travis Sumption

CC: Brian Lichty

From: David L. Ash, County Administrator

Date: March 20, 2018

As a result of the recent rainfall and the more moderate weather forecast for the immediate future, I am exercising the authority delegated to me by the Board of Supervisors pursuant to Chapter 93, Article I, Section 93.3 to rescind at 4 pm, Tuesday, March 20, 2018, the local prohibition on outdoor burning within the County of Clarke, imposed on March 15, 2018.

Please take note that this action does not rescind the limitations on outdoor burning imposed by Chapter 10.1-1142 of the Code of Virginia, as amended, which restricts burning to the hours between 4:00 p.m. and 12:00 midnight and imposes other restrictions on the nature and location of permissible fires. Neither does it prohibit the imposition or continuation of burning bans or regulations by agencies or organizations otherwise authorized or empowered to impose such regulations or bans.

Individuals are encouraged to use good judgment and discretion before lighting any outdoor fire and to take proper precautions to insure that the fire is controlled during the hours burning is permitted. Any fire so ignited should not be left unattended until it is completely extinguished.

Individuals having questions regarding this matter should contact the Director of Fire, Emergency Services, and Emergency Operations at (540) 955-5113.

Below you find a briefing of information pertaining to the Hazard Mitigation Plan 2017 update.

The Northern Shenandoah Valley Regional Hazard Mitigation Plan has been prepared by the Northern Shenandoah Valley Regional Commission (NSVRC) in coordination with a regional steering committee, state agencies, and public input. This plan was adopted in 2012 and has undergone the required 5 year review. This plan serves to identify strategies to facilitate locality readiness and enhance response and resilience in the fact of hazards to protect life and property. The plan includes;

- Identification of various natural hazards that affect the region;
- Ranking hazards identified in terms of threat;
- Assessment of potential losses to infrastructure, population, and operations from hazards;
- Identification of goals and actions to mitigate hazards for each jurisdiction;
- Updated listing of strategies to guide future hazard mitigation efforts and an
- Outline of a mechanism to monitor the plan in the future planning period.

The main areas of focus for Clarke County are focused in chapters 3 – Regional Setting, Chapter 5 – Capability Assessment, and Chapter 7 – Plan Maintenance In Chapter 3 of the plan there are several elements about the region to include;

- Location of Northern Shenandoah Valley Region in relation to Washington DC
- Watersheds, Wetlands, Elevation and Mountain Peak maps
- Climate Statistics
- 2010 Population Density mapping & Future Population Density
- Intercensal Population estimates to include age profiles

- Medium Household Incomes

Clarke County does have a Comprehensive plan, an EOP, CIP and Municipal Code.

In Chapter 7 of the plan the referenced FEMA guidance is identified and the requirements within for proper adoption. Furthermore there is a plan to for future revisions and updates. This plan meets and exceeds Federal Hazard Mitigation planning. A full draft of the plan can be found at; http://www.nsvregion.org/hazard-mitigation.html

BY ADOPTING THIS PLAN THERE IS NO COMMITMENT TO ANY ACTIONS, FINANCIAL OR PROCEDURAL. THE ADOPTION OF THIS PLAN ASSISTS IN IDENTIFYING HAZARDS FOR THE MITIGATION, PREPARDNESS, RESPONSE AND RECOVERY OF EMERGENCY MANAGEMENT IN THE COUNTY.

Ms. Walburn,

Mr. Shawn Free left our organization and I am the interim Transit Manager so I wanted to introduce myself and reopen the lines of communications between the VRT Operations center and the folks in Clarke County.

Will you be my primary contact in Clarke or should I also be in communications with anyone else?

Do you have any questions, concerns, or recommendations?

I do have one topic I'd like to open up to discussion. Mr Poe our primary driver on the Clarke route and our dispatchers are saying that the Friday Walmart run has grown in popularity and they occasionally have to turn down a rider for this trip. The reason we are occasionally unable to accommodate all request is because two of the riders that want this trip live in different corners of the county and the bus won't have time to pick up both these folks and still make the run and stay within the contracted service hours.

The drivers suggestion is to add an additional trip to the Winchester Walmart on Wednesdays this will allow us to accommodate everyone who wants to get to Walmart and to relieve the crowding that is now occurring (9 riders + 1 or 2 wheel chair passengers plus all the groceries they can carry). Both the driver and the scheduler do not feel that this will negatively impact those riders that want to go to destinations in Berryville and this will not change the agreed upon service hours.

Please let me know your thoughts,

Eric

MEMORANDUM

To:

Tom Judge, JAS Director

From: Brian Lichty, Director Fire, EMS and Emergency Management

Cc:

David Ash, County Administrator

Date:

RE:

Increased Revenue Options

Per your request I have examined several different methods for increasing revenue for the Ambulance Fee-For-Service Program. Below you will find a list of possible revenue options as presented by the Fire-EMS Commission Budget sub-committee.

- 1) Add patient balance billing to the fee for service program. In billing patient balances the revenue in this program could raise considerably. This would continue with the "soft billing" practices currently used.
- 2) Add billing for non-transport incidents. Considerable amounts of incident conclude with no transport therefore no fees collected. The billing for non-transport services is now being allowed by many insurance companies.
- 3) Establishment of a "Fire Levy" by the county. This is allowed by the Code of Virginia Title 27-23.1 and would designate a portion of the tax collected specifically for Fire-EMS needs. This allows an increase when needed and advises the public on what part of their tax is used for Fire-EMS services.

		Collections	
	40%	45%	50%
Patient Balances	\$61,857	\$69,589	\$77,321
Non-Transport	\$12,180	\$13,702	\$15,225
Total	\$74,037	\$83,291	\$92,546

The provisions referenced above supplement, but do not supersede, other provisions of law including, but not limited to, the Virginia Conflict of Interest Act (§2.2-3100 et. Seq.). The provisions apply not

- No bid will be considered which stipulates that Clarke County shall guarantee to order a specific quantity of any item.
- CC. DEVIATIONS: If there is any deviation in any bid from that prescribed in the Scope of Services, the appropriate line in the Scope of Work/Services shall be ruled out and the substitution clearly indicated and submitted with the Bid Response Form. 4. ERP Update

Tom Judge stated-

- Training was held last week but conversions were not properly communicated so training was done on old data.
- Staff (Gordon, Tom, Sharon, and Donna) met last Friday and discussed the status of the project. The conversions and forms were the key things that would cause problems.
- Contacted Tyler last Friday afternoon and they agree. Discussed postponing to Go Live June 26th 20th, 2018. With follow up training from Tyler in late July.
- This would give few more months to train on our own and communicate with Tyler with any issues that are found.

Sharon Keeler stated that postponing would allow for her staff to have training days actually working in Tyler training ourselves. Staff would log in individually so that they can make sure that all the permissions are correct. She also mentioned that it might help if we could budget in for dual monitors for each desk because there are many pages that need to be flipped through and being able to do split screen would be helpful.

Donna Peake stated that it would help in her office as well to train individually to make sure permissions are there where needed.

Sharon Keeler, seconded by Chip Schutte, moved to postpone the Go Live date to June 26th, 2018. The motion carried by the following voice vote:

David Ash - Aye
Chuck Bishop - Aye
Sharon Keeler - Aye
Chip Schutte - Aye
David Weiss - Aye

Director's Report to the Library Board For February 2018

Submitted March 20, 2018

APR - 2 2018

Groundhog Day Bursts the Seams at Bowman Library, by Kim Bean

Clarke County

Bowman Library was filled to capacity on February 3 with activities for all ages and interest groups. With multiple events simultaneously taking place, there was a large crowd in attendance and the overflow parking lot was quite full. In addition to the Groundhog festivities (with real groundhogs and ice cream), there was a Houseplant clinic with the Master Gardeners, the Chess Club meeting with 30+ players, and the Friends book drop-off.

As last year, the synergy between the programs was fantastic. Chess players came over to see the groundhogs and eat ice cream; after dropping off books many

Master Gardener volunteers and participants at the Houseplant Health Clinic on February 3.

came in to participate in one or more activities; and many kids and their parents had not only a fun experience and ice cream, but also got free house plants and information on how to grow them. Most importantly, once again, everyone at the library got so much more out their library visit than they expected.

More than Question Answerers

Library Reference staff can still help you find printed library materials, from your next favorite read to resources for your research project. But Adult Services continues to evolve to meet

customer needs. They can help set up email accounts, download eBooks, use the new ScanCenters, or load library apps like Libby onto your smartphone. The goal is to connect people with the information they need, whether it's in a book, magazine, online service or workshop. To meet the demand for hands-on learning, Adult Services staff and community partners are now sponsoring informational workshops. Using knowledge of our customers' interests, especially gardening, cooking, and health and wellness, the workshops started last fall on varied topics of gardening, router safety, and origami. Some future programs are Winter Sowing (March 19), Health Screening (April 4) Found Poetry (April 9), eBook how-to workshop (April 12), Knitting for First-

Timers (April 21), and Herbs (May 12). Support is provided by Valley Makers Association, Friends of Handley Regional Library, and the Robinson Trust.

More than 30 chess participants also enjoyed some ice cream on February 3, Bowman Library.

A live groundhog made his appearance at Bowman Library to supplement Groundhog Bowman Bill puppet's prediction.

Kimberli and Elmo Ball, Jeannette and Robert G. Harper, George Kirkpatrick Jr., Friends of Handley Regional Library, Amanda Acker, Linda and Larry Sullivan in honor of Amos Myers, Winchester Little Theatre, Inc., Pearl Ebert, Robert Mitchell Jr., and Jordan Spivey.

Adult Services, Adrienne Davis

Adult Services had a busy month! Programming from a Houseplant Health Clinic with 90 (!) attendees to a Router Safety workshop was held and the public enjoyed them greatly. Staff took cross training with Circulation staff at TLC to improve customer services and staff worked on our social media to ensure our information is correct. Adrienne has also been working to train up two new staff persons, Amelia Ritzenthaler and Lisa LaCivita.

Bowman Operations, Kim Bean

In February, a funding request for furniture and equipment for the Bowman Library was submitted to the Friends for consideration for their FY2018-19 budget. Items included in the funding request were tables and chairs for additional seating in the lobby, tables and chairs and a storage cart for the meeting room, a label printer for Technical services, and funds to purchase display materials.

On February 13, Kim Bean met with Todd Drunagel and Steve King of Tech Team Solutions, for the first of regular monthly meetings, to discuss the Bowman Library's computers and technology. It was a substantive meeting with good discussion and we all came away with action lists.

Youth Services, Donna Hughes

The monthly "Meet a Sheriff" program at Handley Library became "Sweets with a Sheriff" during the month of February. The Winchester City Sheriff's Office donated 4 copies of each of their books, "Deputy Knowles Knows", and "Deputy Knowles Makes a Difference" to the Handley Regional Library System. Sheriff Les Taylor read "Deputy Knowles Knows" to families. After the story, Sheriff Taylor and many other members of the Sheriff's Office in attendance, decorated sugar cookies with families. The local media covered this program, as well.

Beanstack is chosen as the Summer Reading Program 2018 online platform. This program offers client support to create an online program that will increase our profile in encouraging summer reading and beyond; while offering a strong platform for community involvement.

Christine met with Kiersten and Emily, two interns from Shenandoah University, to plan and implement a bilingual storytime at Handley Library.

Business Manager and Handley Operations, Ann White

Handley Library joins Old Town Winchester in Chocolate Escape festivities:

Handley Library in partnership with the Magic Lantern Theatre participated in Old Town Winchester's Chocolate Escape weekend by holding a free screening of On the Town starring Gene Kelly, Frank Sinatra, and Ann Miller. Attendees were treated with traditional chocolate Italian rainbow cake bites.

PIC (person in charge) staff participated in emergency facility training: Staff members who are designated PICs received training on February 15th that would enable

them to act quickly in the event of a facility emergency. Training, conducted by Pat Ritchie, included fast response tips and tricks for issues such as running water, stuck elevators, alarms (of ALL sorts), and HVAC.

Networked Shared folders and backup to Server: Discussed with Tech Team the skeleton of the shared folder paradigm, i.e. Action Team, Adult Services, Youth Services, etc. They have created these folders on the server. Starting in March they will configure individual computers to access the shared file folders as well as configure individual computers to use the server as backup device as opposed to the online backups that are currently happening.

Friends of Handley Regional Library, Barbara Dickinson

Successful finale to the Little Noon Music Series took place in February. This is the longest running program series produces by the Friends of HRL. Area musicians attract wide age ranges to musical performances in Robinson Auditorium at Handley Library. Area musicians contact the Friends office throughout the year to try to perform in this 4-part series. The Friends compensate the musicians for this program series.

Circulation Services, Mary Anton

Mary has been working diligently with TLC and Tech Team to figure out various issues and getting new equipment up and on line. Her staff went to off-site training at TLC to prepare for an upcoming change in our new online circulation system. In addition Mary coordinated our three outreach activities this month.

Clarke County Library, Laurine Kennedy

The SCANNX machine was installed and is great. We have had a few glitches in set-up but patrons love it.

On February 17 we had the first Spring Garden Talk at the Barns. We had 22 in attendance.

Public Relations:

Monthly Message Campaign – Next focus will be on maximizing patron engagement on our "Big 3" social media platforms (Facebook, Twitter and Instagram). Committee members are taking steps that will counteract recent Facebook changes that may further negatively impact how much content our followers see in their feeds. The focus of Facebook posts has already moved away from program announcements and towards more engaging posts (fun questions, videos, etc.). Programs are now included as Facebook Events and promoted through paid ads. The changing effectiveness of Facebook creates an opportunity for committee members to focus more on Twitter and Instagram, which also further widens our audience reach.

ZONING AND SUBDIVISION ORDINANCE UPDATE PROJECT PROGRESS REPORT (APRIL 2018)

- Work Plan Items Completed to Date:
 - o Step 1 Adopt Work Plan, Project Policies and Timeline
- Work Plan Items in Process: Currently on schedule. The Committee is currently working through Step 2, Discuss and Provide Formal Direction on Policy Issues (projected for completion by May 31, 2018). Issues reviewed since the March report include:
 - Evaluate all current permitted, accessory, and special uses in each County zoning district (excluding Berryville Annexation Area Districts) (P27) The Committee reviewed this issue at their February 28 meeting. Their work included evaluating whether current district assignments for each use are appropriate, determining whether use definitions and supplementary regulations accurately describe the uses as they are applied today, and removing terms and uses that are no longer used. The goal for the revised Zoning Ordinance is to have a list of uses with consistent terminology, definitions, and supplementary regulations.
 - Evaluate regulations for tenant houses, dwellings less than 600 square feet, and barn/accessory apartments (P26) The Committee reviewed this issue at their meeting on March 14 which covers the different types of accessory dwellings that are currently allowed. The Committee evaluated the review processes for tenant houses (which require the use of DURs tied to the property area) and dwellings less than 600 square feet (allowance of one per property without a DUR subject to property area) with a particular focus on how Staff has applied the rules in different situations over the years. The Committee also evaluated what constitutes a "dwelling unit" and whether new regulations should be created for secondary dwelling units located within the footprint of the primary dwelling (e.g., "mother-in-law suite").
- <u>Upcoming Meetings Scheduled</u>: Several of the upcoming meetings are dedicated to the discussion of a single large or complex issue. The Committee will be discussing the smaller policy and technical issues throughout the meeting schedule.
 - o #10, Wednesday, April 11 (2:00PM) Evaluate review processes and update where necessary (T17)
 - o #11, Wednesday, April 25 (2:00PM) Continued review of policy and technical issues
 - #12, Friday, May 4 (following Planning Commission Business Meeting) –
 Consider adding new regulations and a definition for "agritourism" (P18)

o #13, Wednesday, May 23 (2:00PM) – Complete review of policy and technical issues

• Staff Items In Process:

- Development of "process maps" for each review process in the Zoning and Subdivision Ordinance – to be completed by March 30
- o Initial development of the Guidance Manual outline
- o County Attorney review of previous policy issues
