Chapter 154 Stormwater Management – REPEALED

[HISTORY: Adopted by the Board of Supervisors of Clarke County August 17, 2010. Amendments noted where applicable. Repealed by the Clarke County Board of Supervisors of Clarke County September 20, 2016.]

Amendments Chapter 154

2010-08-17

Adopted Chapter 154 Stormwater Management 08-17-2010

2011-03-15

Chapter 154: §154-4-B Water Quality Criteria Requirements, so as: To clarify that the total phosphorus load of a project occurring on prior developed lands not within Urban Development Areas shall be 20% less than the existing load from the site or 0.28 pounds per acre per year, whichever is less stringent and to modify the paragraph headings to more clearly differentiate the regulations for development in and not in urban development areas and To state for development on prior developed lands within Urban Development Areas (land subject to County ordinance in the Berryville Annexation Area): The total phosphorus load of a project occurring on prior developed lands shall be 20% less than the existing load from the site or 0.45 pounds per acre per year, whichever is less stringent. CC-11-02; 03-15-2011.

2016-09-20

Repeal Chapter 154, Stormwater Management, of the Code of Clarke County. The purpose of the amendment is to comply with recent changes to the Stormwater Management Act (Code of Virginia §62.1-44.15:24 et seq.) which only allow localities that are Virginia Stormwater Management Program (VSMP) authorities to adopt stormwater ordinances that are more stringent than State requirements. Clarke County has chosen to opt-out of operating a local VSMP. The proposed amendment also avoids duplicitous local regulation of stormwater management by allowing the Virginia Department of Environmental Quality (DEQ) to serve as the sole regulatory authority for stormwater management in Clarke County. CC-2016-04 2016-09-20
